

Appl. No. : **10/563,455**
Filed : **August 31, 2006**

REMARKS

The present amendment has the same content as the preliminary amendment filed January 3, 2006, except that status identifiers have been provided for claims 42 and 43. Thus, this amendment now meets the requirements of 37 CFR 1.121. The claims referred to herein are from the published PCT application (WO2005/003178) corresponding to PCT/DK2004/000487. The specification has been amended to correct the title of the application, and to provide the relationship to previous applications and the claims of priority to said applications. The abstract has been amended to provide the proper heading thereof ("abstract" rather than "summary") and to correct a clerical error.

In the present paper, Claim 13 has been canceled, and claims 1, 3-8, 10-12, and 14-43 have been amended. Thus, claims 1-12 and 14-43 are presented for examination.

Support for the amendments to claims 35 and 36 may be found in the specification at page 19, line 14 to page 20, line 12. Support for the amendment to claim 14 may be found in original claim 14. The remainder of the claim amendments include deletion or reduction of multiple claim dependencies, changing claim dependencies, and other formal matters. Thus, the present amendments do not add new matter, and their entry is respectfully requested.

Please charge any additional fees, including any fees for additional extension of time, or credit overpayment to Deposit Account No. 11-1410.

Respectfully submitted,
